4. Build up compact deliveries by working territory thoroughly.
5. By avoiding the poor risks, collections will be prompt and deliveries clean.

SHADE AND ORNAMENTAL TREES.

All Nursery Grown and No. 1.

Note—To avoid any misunderstanding regarding the sizes and grades of trees, we make the following explanation; The 6 to 8 foot grade takes in trees that are 6 feet and over and up to 8 feet, but does not include the 8 foot trees. The 8 to 10 foot grade takes in those that are 8 feet and over and under 10 feet, but not the 10 foot, and so on through all the grades. For example, should you wish a tree 10 feet high and 1½ inch in diameter (or caliper) you must order the 10 to 12 ft. tree, 1½ to 2 inch, as the 8 to 10 ft. grade does not include the 1½ inch or 10 ft. trees.
